## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIODS ENDED OCTOBER 31, 2005 (UNAUDITED)

### 1. Nature and continuance of operations

The Company was incorporated under the laws of the Yukon Territory and is registered extra-provincially in the Province of British Columbia, Canada.

The Company was in the process of exploring its mineral properties and had not determined whether these properties contained ore reserves that were economically recoverable. The Company has written-off all amounts shown for mineral properties and their related deferred costs. The Company is currently investigating opportunities in the biotechnology field.

### 2. Significant accounting policies

#### (a) Mineral properties and deferred costs

The Company has written-off all of its mineral property interests and retains a residual royalty entitlement in respect of its Aurex exploration property.

#### (b) Fair value of financial instruments

The carrying amount of cash and cash equivalents, accounts receivable and accounts payable and accrued liabilities approximate their fair value due to their short-term nature.

#### (c) Stock option plan

Options are granted periodically by the Directors under the Company's stock option plan. The Company has elected to apply the fair value method of accounting for stock options on a prospective basis and, accordingly, the fair value of stock options granted is calculated using a Black-Scholes option-pricing model and included as an administrative expense.

#### (d) Income taxes

Effective from January 1, 2000, the Company adopted the new recommendations of the Canadian Institute of Chartered Accountants with respect to accounting for income taxes, whereby income taxes are calculated using the liability method of accounting. Temporary differences arising from the difference between the tax basis of an asset or liability and its carrying amount on the balance sheet are used to calculate future income tax liabilities or assets. These standards also require that the future income tax liabilities or assets are measured using tax rates and laws expected to apply in the periods that the temporary differences are expected to reverse. The Company has currently provided for a full valuation allowance against any potential tax assets.

The implementation of the new recommendation, which was applied retroactively, has had no effect on these consolidated financial statements.

## NOTES TO THE FINANCIAL STATEMENTS (cont.)

### FOR THE PERIODS ENDED OCTOBER 31, 2005

(UNAUDITED)

#### 2. Significant accounting policies (cont.)

##### (e) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results may differ from these estimates.

##### (f) Investment

The Company's investments are carried at cost and are considered non-current assets as the Company intends to hold them for a period of greater than one year. If there is an aggregate loss in value that is other than temporary, defined as existing over two consecutive year ends, the component loss investments are written-down to their estimated market values.

#### 3. Exploration agreements

##### CANADA; YUKON TERRITORY

###### *Aurex Property - Mayo Mining District*

The Company had a 100% interest in this property, consisting of 155 mineral claims. On August 16, 2001, the Company agreed with Expatriate Resources Limited (Expatriate) to accept \$84,000, to be paid by the issue of 600,000 common shares in Expatriate, as final settlement for the sale of the property. Gtech International Resources Limited retains a 1.5% royalty on the project which Expatriate may purchase from the Company for \$1,000,000.

###### *Revenue Creek Area - Whitehorse Mining District*

The Company owned 69 mineral claims, which it sold to ATAC Resources Limited (ATAC), a Canadian public company, on January 16, 2002. The Company agreed to accept 200,000 common shares in ATAC and a cash payment of \$5,000 in final settlement for the transfer of the project. Gtech International Resources Limited retains a 2% net smelter royalty which ATAC may purchase from the Company for \$600,000.

#### 4. Related party transactions

The Company is a subsidiary of Genetic Technologies Limited, an Australian public company listed on the Australian Stock Exchange (code: GTG) and NASDAQ National Market (ticker: GENE). GTG owns 3,918,499 shares of the Company representing 75.82% of the Company's issued shares. During the period under review, GTG paid certain invoices on behalf of the Company. As at October 31, 2005, the Company owed GTG a total of \$23,636.
